**N**ew Horizons is celebrating 65 years of providing life-changing programs and support to people with special needs. What began as a non-profit by parents of children with Down syndrome, and eight classrooms serving 100 children, has become a premier place for hundreds of individuals with developmental and intellectual disabilities.

Serving the San Fernando Valley and Greater LA Community, we are proud of our legacy and scope of services including employment readiness training and placement, independent living support, group housing, public transportation training, in-home and campus-based life-skill/social training, civic volunteering, and technology/media arts classes which serve 1,200 adults annually.

By participating in New Horizons 16th Annual Golf Classic, whether purchasing a sponsorship, foursome, or playing as an individual, you are an important part of our mission helping to support inclusion and opportunities for individuals with special needs to live and thrive in the community. We encourage you to remember this as you enjoy a beautiful day on the greens in support of individuals who, like you, have hopes and dreams for a good life and a bright future.
